Pain-Free,
Hair-Free™
The Comfortable Way to
Eliminate Unwanted Body Hair

Alma Lasers Patient Education Series

Pain-Free, Hair-Free™ is a state-of-the-art procedure specially designed to remove unwanted hair faster, more comfortably, and with fewer visits than ever before.

Now, because of the patented IN-Motion™ technology of *Pain-Free, Hair-Free*, you can even treat sensitive areas without the discomfort of other systems. By using a sweeping, paintbrush technique, the *Pain-Free, Hair-Free* procedure is shorter, more comfortable and gives great results.

More comfortable than ever before

Pain-Free, Hair-Free gently heats targeted hair follicles with gentle pulses of laser energy, while you stay comfortable. Nearly any part of the body can be treated safely and comfortably, including the face, neck, legs, arms, bikini line, back and stomach.

Because the laser is constantly in motion, many clients say that *Pain-Free, Hair-Free* treatments feel similar to a "hot stone massage."

Technology in motion

Pain-Free, Hair-Free is laser hair removal at its finest and is only available from Alma Lasers. The IN-Motion technology gradually heats the hair follicles under the skin until they can no longer produce new hair. Since the laser is in constant motion, your treatment area can be wider—which makes sessions go quickly.

In addition, a patented DualChill™ mechanism ensures the surface of your skin stays cool and comfortable throughout your treatment.

Safe for all skin types

The *Pain-Free, Hair-Free* treatment is suitable for all skin types, including tanned skin. You can expect lasting results from a series of relatively short sessions.

Fast and comfortable hair removal

Pain-Free, Hair-Free treatments are:

- Virtually pain-free with no medication or other pre-treatments required
- Long-lasting
- Quick—treatments are usually under an hour
- Recovery-free, so you can return to normal activities immediately
- Effective for all skin types, including tanned skin, as well as different hair types
- More complete in coverage than other laser hair removal options
- Perfect for any area of the body—including more sensitive areas like the face, neck and bikini area

Safe and effective

Hair removal is one of the aesthetic medical industry's most well-known and researched uses of lasers. Thousands of clients worldwide have enjoyed a life without unwanted hair, thanks to *Pain-Free, Hair-Free*.
